Why University of Exeter?

TOP 150
Top 150 in the Academics Ranking of World Universities (ARWU) 2022.

Over 30,000 students from over 150 countries.

Lots of societies – there's something for everyone.

TOP 15
UK Top 15 in The Guardian 2022.

1st
1st in the Russell Group for Student Satisfaction in the National Student Survey 2022.

RUSSELL GROUP
Member of the prestigious group of Russell Group universities.

Dedicated support for Research and PhD students.

Chartered as the University of Exeter in 1955.

Postgraduate scholarships available. See page 26.

Beaches: great for watersports.

Beautiful green campus locations in Exeter and Cornwall.

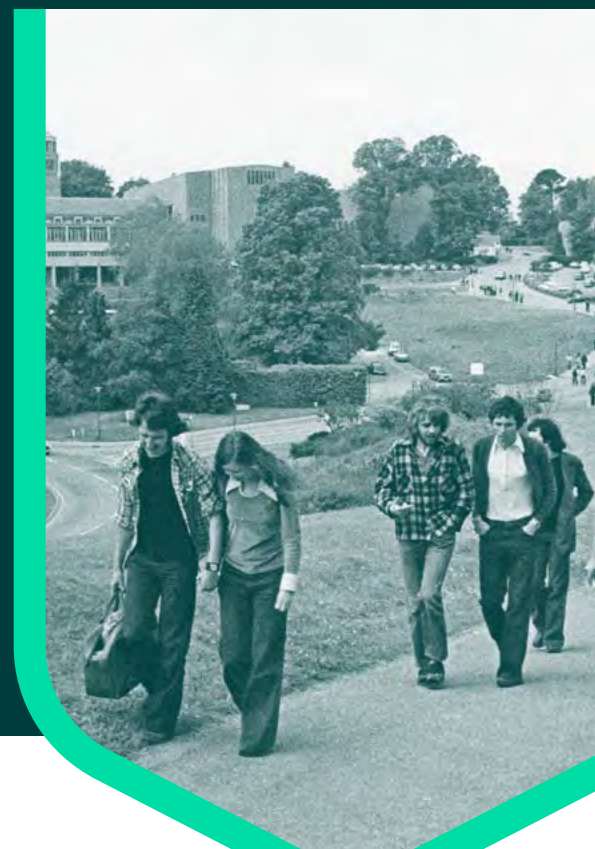
Safe campus environments.

I decided on Exeter because it is a Russell Group institution, making it the equivalent of a US Ivy League school. Exeter is an incredibly beautiful and historic city. Despite my concerns about the educational and cultural differences, I was able to pick things up within a week. I strongly encourage all Americans to give England a go.

Rachel.
Studying MSc Management

Our history

- We’ve been dedicated to discovery and changing lives through education since 1851 when the Exeter Schools of Art and Science were founded.
- In 1922 we became the University College of the South West.
- In 1955 we became the University of Exeter.
- In 1978 St Luke’s College of Education (est. 1840) joined us.
- In 1993 Camborne School of Mines in Cornwall (est. 1888) merged with us.
- In 2004 we opened the Penryn Campus, expanding the provision of higher education in Cornwall.
- Today we’re a member of the Russell Group, recognised for both our research and teaching excellence.



We’re still dedicated to discovery.
We’re still changing lives through education.
We can change yours.

Excellence in education

Postgraduate education should be exciting and transformative. We'll challenge you to explore new ideas, ask questions and solve problems. You'll discover how to direct your own learning and take an active part in creating knowledge, ensuring you learn how to think and not what to think.

Innovative teaching

We are committed to building an inclusive environment where diversity is valued, and making sure you feel welcome and able to succeed is our top priority. Our teaching is enriched by our inspiring lecturers and our partnerships with business, industry and professionals. Our academics are active researchers, and many are world leaders in their field. They bring teaching to life by exposing you to new perspectives and sharing the latest discoveries as they happen.

An international education

Interacting with people from different cultures and backgrounds is a crucial part of university education. Our global learning community will broaden your experiences, challenge your perspectives and enable you to form extensive networks across continents. You will learn to work collaboratively, push boundaries and value diversity – all skills which are valued in the workplace where multicultural environments and global connections are the norm.

Flexible learning

Your education is important to us so we're delivering as much learning on-campus as possible, enhanced by the best bits of our online teaching and personal academic support. Our blended approach will combine live teaching with more flexible learning activities to provide an excellent education experience that can quickly adapt to changing circumstances.

Expand your horizons

Some of our Masters programmes include a 'with Industrial Placement' option. Normally studied over two years, you'll have the opportunity to combine your Masters with valuable professional experience, putting your learning into practice while studying, by completing a 9-12 month work placement relevant to your degree. See online for details: **exeter.ac.uk/postgraduate/courses**

The Business School, Streatham Campus.

World-leading research

Our research creates new knowledge and a better world. We are committed to breaking down traditional barriers and supporting our research community to work across disciplines, departments and campuses to consider the bigger problems of the 21st Century from a wide range of perspectives.

We are constantly seeking new ways to engage with internal and external partners to build productive relationships to tackle some of the fundamental and challenging issues facing humankind.

Our results in the latest Research Excellence Framework demonstrated that we are doing more research of better quality, with a more impact on the world than ever before: more than 90% of our research was rated as having internationally excellent impact[1].

Our world-leading research builds on our interdisciplinary culture and is:

- Leading to meaningful action against the climate emergency and ecological crisis.
- Making key breakthroughs to transform human health and wellbeing.
- Leading the progress towards creating a fair, socially just and inclusive society.

Our Doctoral College stimulates, supports and sustains a vibrant, diverse and inclusive research environment across and between disciplines for postgraduate and early career researchers. Focusing on training, resources, employability, community-building, wellbeing, and facilities, the Doctoral College provides an outstanding quality experience and support structure for those in the early stages of their research careers.

Our world-renowned researchers make new discoveries and tackle societal challenges at local, national and global levels. Recent research includes:

- Creating new diagnostic tests to support early diagnosis of life-threatening lung disease.
- Using novel statistical methods to improve zika and Covid-19 disease management in Brazil.
- Revolutionising the diagnosis and clinical care of neonatal diabetes patients worldwide.
- Enhancing heritage tourism by creating an augmented reality app showcasing the early modern history and culture of European cities.
- Shaping more inclusive LGBTQ+ policies within healthcare organisations and religious groups.
- Assisting the survival of endangered communities and cultures amongst the Yezidis and Mandaeans.
- Helping create Africa's largest network of marine protected areas.
- Changing national and international food policy and food trade reform through economics research.
- Using world-class simulation facilities to improve the performance of elite sportspeople and surgeons.

We are committed to ensuring our research base continues to be an asset to society at local national and international levels.

Find out more: **exeter.ac.uk/research**

[1] *Our research impact profile in REF2021 was 93.6% of 4*+3**

Reed Hall Gardens, Streatham Campus.

I'm a bit like an environmental detective, investigating relationships between humans and the environment, or looking for evidence of environmental change.

I am pioneering new techniques to find environmental 'tracers' in a range of different samples, and I've been involved in lots of exciting projects. These include classifying biomarkers in ice cores from Antarctica, identifying microparticles and plastics in fatbergs, reconstructing air pollution histories in Chinese megacities and characterising the growth of microorganisms for biofuels research.

I fell in love with research whilst completing my undergraduate dissertation project – a key moment that has shaped my career as a Postdoctoral Research Fellow. An important part of my research has been to assess how air pollution has changed since the Industrial Revolution in Merseyside using records from urban ponds. I have seen first-hand the impact humans have on air quality, and how there has been a sharp rise in pollution from fossil fuels over the last few decades.

My research has made me passionate about reducing my own personal environmental impact and I now live in a tiny off-grid house with my family. A firm supporter of the current social movement for climate action, I'm proud to work here. The University has declared a climate emergency and is committed to protecting the environment for all our futures.

Dr Ann Power.

Postdoctoral Research Fellow
The BioEconomy Centre, Biosciences

A location like no other

We have beautiful green campuses in the South West of England, which combine historic buildings with modern facilities. But there's plenty more to explore; immediate access to the countryside means you can explore beaches, moors, rivers and villages in Devon and Cornwall. In Exeter and Falmouth themselves, there's great shopping, festivals, bars and nightlife.

Beaches: great for watersports.

Beautiful green campus locations in Exeter and Cornwall.

Find out more: **exeter.ac.uk/visit**

Exmouth seafront, Devon.

Our campuses

The University of Exeter has four campuses across the South West. Our unique location offers beautiful beaches and countryside on your doorstep.

Streatham and St Luke's campuses are in the historic city of Exeter, with plenty of shopping, nightlife and a rich cultural scene. It is well-connected to the rest of the UK by train, plane or bus and our students love how safe the city feels.

Penryn Campus is located near the seaside town of Falmouth in Cornwall, with a close-knit student community and a laid-back vibe. Its stunning beaches offer opportunities for sports and outdoor activities. The Knowledge Spa in nearby Truro hosts our European Centre for Environment and Human Health.

I am convinced that my choice to come to Exeter was a wise one. The Streatham Campus is incredibly beautiful, convenient, with comfortable accommodation, state of-the-art study facilities, professional and friendly staff and a reputation for excellence in research. Exeter is exactly the right place for me to do my Masters and I have really enjoyed my study and life here.

Pisi.

Studying MSc Sport and Health Sciences (China)

Building your career

As you begin your career it's vital that you have the range of skills employers now demand, beyond subject knowledge alone. That's where our dedicated careers team can help.

With links to employers around the world, the careers team blends individual advice and guidance with organised programmes and skills sessions, to empower you to achieve the career you want. Your time in postgraduate study will go quickly, so make sure you take advantage of the support the career team offers from the outset.

Graduate Route

The UK Government has announced that it will introduce the Graduate Route from the summer of 2021. From this time, students holding a valid Tier 4 Visa (also known as a Student Visa), who have completed a degree at undergraduate level or above at a UK Higher Education Provider, will be able to remain in the UK and work, or look for work, for two years after they complete their studies. See online for details: **exeter.ac.uk/students/international/applyingforavisa/studentvisas**

Employing you around the world

Our dedicated team build relationships with global graduate employers to support your career aspirations. We have a Global Employer Engagement Officer within our Global Opportunities Team. We offer China and India Ready Careers Programmes, to help students from those countries apply for jobs in the UK and back home, as well as ongoing support for students to find part time jobs on campus. We actively work with a network of over 5,000 employers, including HSBC, Deloitte, Shopee, Google, Mars and Siemens. All these companies regularly recruit our students for graduate schemes, one-year sandwich-style placements, plus summer and short placements.

Career Zone, Streatham.

The careers team at Exeter is fantastic and has so much knowledge. They helped me as a student and I'm still getting support now as a graduate. Exeter is really good at getting experts in to talk to students. It's all designed to make you a graduate with the core skills employers look for.

Emma.

Barrister (International Law LLM graduate)

Excellent careers support, Streatham Campus.

Supporting you

English language support from INTO University of Exeter

If you need to improve your English to meet our entry requirements, you can enrol on an English language preparation course delivered by INTO University of Exeter on the Streatham Campus. Taught by experienced tutors, who understand the international student experience, our Pre-Sessional courses provide intensive preparation in academic English for students over a six-, ten- or eighteen-week period starting in July, June or April.

INTO also offers Academic English and has regular intakes throughout the year, so it's suitable for students wanting to enrol at other points in the year or who need longer to enhance their skills.

The Exeter International Graduate Diploma programme has been created to develop your study skills and English ability as well as to enhance your subject knowledge. Our range of optional modules enables you to further develop your subject knowledge or explore new areas.

Our programme (subject to achieving the specific entry grades) provides you with the opportunity to progress to more than 30 postgraduate degrees including: Financial Analysis and Fund Management; International Education; Digital Marketing; Accounting and Finance; Entrepreneurship and Innovation Management; Applied Data Science and Management at the University of Exeter.

For further information see **intostudy.com/exeter**

Airport Collection Service for international students

We welcome our new international students starting in September through an Airport Collection Service, and support your transition into UK university life with a programme of events during Fresher's Week – the week before teaching begins. This provides all the practical information you will need to study here, and gives you the opportunity to make new friends too.

See online for full details of the support we offer international students: **exeter.ac.uk/students/international**

Support and wellbeing once you are here

- International Student Support is our team of immigration-trained international student advisers. We provide group and 1:1 visa advice from pre-arrival through to graduation and can also provide information about living in the UK.
- Insessional English language support is offered free of charge at our Streatham Campus through **intohigher.com/exeter** and at Penryn Campus by ASK: Academic Skills at **languages.fxplus.ac.uk**.
- Our Global Chums mentors will help you settle in, introduce you to societies, clubs and sports and be on hand to answer your questions.
- Our careers services can help you find part-time work to help fund your studies; and a full-time job on completion.
- Our welfare teams will be there for you to discuss any health and wellbeing issues that may be affecting your ability to study.

Student life

A postgraduate degree should challenge you – it requires commitment, passion and determination – but even at Masters level, student life should be all about balance. Whether you're interested in societies, sports, arts and culture or nightlife there's a host of opportunities at the University of Exeter to advance yourself, meet new people, and create memories. Your postgraduate experience can be anything you want it to be.

Our community

At the University of Exeter you will benefit from a truly global experience. Our vibrant and multicultural student community provides a supportive environment where you can try new things, develop your professional and personal skills, build your confidence and meet new people from all around the world and every conceivable background exposing you to different ideas, perspectives and ways of living.

Whether you're based at our Penryn Campus in Cornwall, or our St Luke's or Streatham campuses in Exeter, you'll be welcomed into our engaged, inclusive and safe communities of people, who unite around shared interests and values. Our campuses are bustling places with students coming together to play sports or music; run fundraisers; attend film screenings, gigs and events; network with employers; collaborate in the library or simply catch up over coffee in one of our many cafes.

Our societies

Both the Student's Guild in Exeter and the Falmouth and Exeter Students' Union in Penryn, support and bring together our student communities. With over 300 societies across our campuses there is something for everyone, and it's a great way to make friends, have fun and explore the local area.

Student life

Arts and culture

There is a thriving cultural scene in Exeter and Penryn, with events taking place on and off campus throughout the year, from food and drink festivals to live music performances and folk festivals. You could join a performing arts club, watch a movie at our on-campus cinemas (Streatham and Penryn), view an art exhibition on campus or explore the nearby galleries and museums.

Sport

Whether you're an elite athlete or a complete novice, the University of Exeter offers a huge variety of sports clubs and societies. Perfect your skills, learn something new or just have some fun!

- Over 100 sports clubs across our campuses.
- National success – We're the #1 sports university in the south of England and Wales, and we consistently finish top 5 in the British Universities and Colleges Sport (BUCS) rankings each year.
- New and improved facilities – recent investment into our sports centres, with gyms, all-weather pitches, fitness classes, swimming pools.
- Play in local league and national competitions.
- Sports scholarships are available, providing support and financial benefits to help meet the needs of individual athletes.

Facilities

We have excellent facilities and laboratories for science, technology, engineering, mathematics and medicine as well as humanities and social sciences across all our campuses:

- Environment and Sustainability Institute (Penryn Campus).
- Living Systems Institute (Streatham Campus).
- Research, Innovation, Learning and Development Centre (RILD), Royal Devon and Exeter Hospital (Exeter City Centre).
- The Knowledge Spa at the Royal Cornwall Hospital (Truro, Cornwall).
- The Bill Douglas Cinema Museum (Streatham Campus).
- Digital Humanities Lab (Streatham Campus).
- Medical Sciences Laboratory (St Luke's Campus).
- Microscopy Suite (Streatham Campus).
- Medical Imaging Suite (St Luke's Campus).
- Masters Suite (Penryn Campus).
- Daphne du Maurier Archive (Penryn Campus).
- 24/7 library facilities (Streatham, St Luke's and Penryn campuses).

Student life

Birks Grange, Streatham Campus.

Accommodation in Exeter

Studying in a new place is a big decision and it's important to have somewhere to call home, whether that's private accommodation or university halls.

University accommodation in Exeter

Our student residences each have their own character and offer you safe and secure environments to live and study in. We know that postgraduate students have different needs to undergraduates. With this in mind, our accommodation offers the following benefits:

- Guaranteed accommodation for first-year international students who start their course in September and apply by our deadline[1].
- A range of convenient locations.
- A variety of contract lengths.
- No guarantor required – arranging accommodation with us is easy.
- All-inclusive rents – no extra bills to pay.
- 100Mbps internet access with wired and wifi connectivity included.

Find out more on our website exeter.ac.uk/**accommodation/students/postgraduatestudents**

Private accommodation in Exeter

The city and surrounding area has a good stock of private accommodation with contract lengths and rent levels to suit different budgets. Both campuses are close to the city centre, so you're never too far away.

For further information on private accommodation in Exeter, please visit **exeter.ac.uk/accommodation/privatehousing/housingoptions**

To look for private accommodation please visit exeter.ac.uk/**accommodation/privatehousing/studentpad**

[1] *Applies to unaccompanied students only. Please apply by our guarantee deadline (check the website for details).*

Accommodation in Cornwall

With options both on and off the Penryn Campus, there's a range of accommodation in Cornwall to suit all tastes.

University accommodation in Cornwall for international students

Our university-owned, managed and approved halls include either campus-based en-suite accommodation, or offsite choices just a 10-minute walk away. We aim to allocate you to a flat with other postgraduate and mature undergraduate students and offer:

- Guaranteed university accommodation for international postgraduate students who apply by our deadline[2].
- High-quality, en-suite accommodation at The Sidings and Glasney Student Village, situated near or on the Penryn Campus.
- Residences divided into self-catered flats with up to seven study-bedrooms. A number of rooms are wheelchair-accessible and can be adapted for students with disabilities.
- Rooms furnished to a high standard with a bed, wardrobe, desk and chair.
- All-inclusive fees covering all utilities, wifi and contents insurance.

A catered package is available for students staying in Glasney Student Village.

Find out more on our website: **fxplus.ac.uk/accommodation**

Private accommodation in Cornwall for all postgraduate students

A range of high standard private housing is available for rent in Penryn and Falmouth.

For further information and help on private sector accommodation in the area, please visit **fxplus.ac.uk/accommodation/private-sector-accommodation**

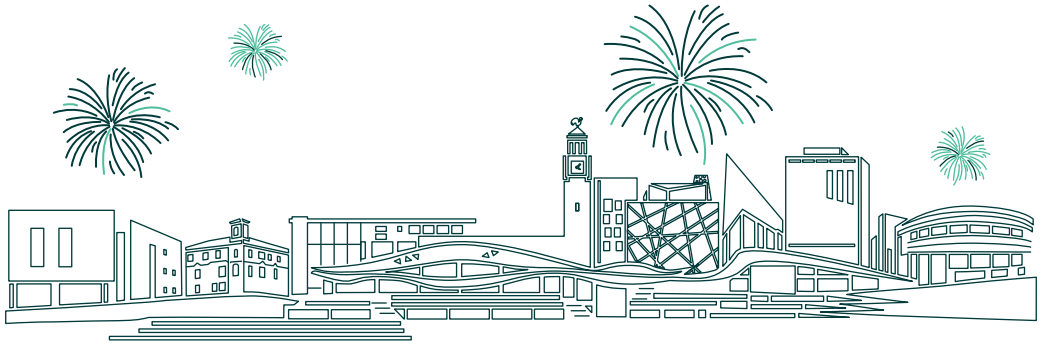
Glasney Village, Penryn Campus.

[2] *Please apply by 31 July 2023.*

Applying to study with us

Start your journey to becoming a University of Exeter student by following these simple steps!

Welcome to the Univerisity of Exeter



GET ONLINE

If you have any questions please do get in touch! **exeter.ac.uk/enquiry**

CHOOSE

Decide what course you'd like to study

DECISION TIME

If we make you an offer you'll need to let us know your decision. How to do this will be included in your official offer

APPLY

You can submit your application from September on our website **exeter.ac.uk/postgraduate/applying**

Applying to study with us

Your PhD applicant journey

Follow either of the two routes outlined to understand how to go about identifying and applying for the right PhD. As a general rule, funded PhD projects tend to be more readily available in STEMM (science, technology, engineering, maths and medicine) subjects.

'I'd like to do a PhD!'

Search for potential PhD projects based on your interests and circumstances at **exeter.ac.uk/phdprojects**

Contact the supervisor(s) listed on the project advert to discuss your application.

Prepare your CV, transcripts and cover letter in advance of the deadline.

Narrow down your subject area of interest to a novel question and create a draft research proposal[1].

Identify staff who share similar research interests. Contact them to discuss your research proposal and request supervision.

Refine and finalise your research proposal[1]. Prepare your CV, transcripts and cover letter.

Submit your online application and await a decision.
exeter.ac.uk/pg-research/apply

See online for details of PhD funding opportunities: **exeter.ac.uk/funding**

[1] *See page 44 for guidance on writing a research proposal.*

Italian Gardens, Penryn Campus.

Fees, funding and scholarships

When planning how to fund your postgraduate degree, make sure you start early and think creatively; the sooner you do, the longer you have to research opportunities and get funds together. Alongside your tuition fees you will need to account for living costs and accommodation, as well as other potential course costs.

University of Exeter Global Excellence Scholarships[1]

Our Global Excellence Scholarships of at least £5,000 are available for international fee paying students applying to study a Taught Masters with us in September 2023, and will be awarded for outstanding academic quality.

As scholarships will be awarded from the beginning of the application cycle, we encourage an early application to ensure you are considered before all funds are allocated.

See online for more details:
exeter.ac.uk/globalexcellence

UK Research Council PhD Studentships

Prospective doctoral students wishing to study at a UK research organisation, including international students, can apply for a UKRI studentship. To search all funded PhD opportunities at the University of Exeter visit:
exeter.ac.uk/pg-research/money/phdfunding

UK Government loans for Masters students

- Borrow up to £11,836.
- Any Masters programme in any subject, taught or research.
- Full-time, part-time and distance learning included.
- Anyone aged under 60 is eligible.
- Repayments are income-contingent and will begin after graduation.

See online for more details including eligibility:
exeter.ac.uk/pgloans

UK Government postgraduate loans for PhD students

- Borrow up to £27,892.
- Only available to students without a Research Council living allowance, who gain a place for doctoral study at a UK university.

Visit the UK government website for more details including eligibility:
gov.uk/doctoral-loan

[1] *Select programmes only. Terms and conditions apply. See online for details: exeter.ac.uk/funding*

International students

As well as scholarships from the University, international students may be able to apply for one of the following country specific schemes that we support:

- Marshall Scholarships: **marshallscholarship.org**
- Colfuturo Scholarships: **colfuturo.org**
- Commonwealth Scholarships: **cscuk.dfid.gov.uk**
- Chevening Scholarships: **chevening.org**
- Fulbright Scholarships: **fulbright.org.uk**
- Saïd Foundation Scholarships: **saidfoundation.org**

University of Exeter finalists and alumni

We are pleased to offer graduating University of Exeter students and University of Exeter alumni who enrol on a standalone Taught Masters or Research degree in 2023/24 a scholarship towards the cost of their first year tuition fees. See online for details: **exeter.ac.uk/funding**

Other sources of funding

Visit our website to learn more about funding Masters and PhD study, and search our funding database for details of available scholarships: **exeter.ac.uk/funding**

Tuition fees

Tuition fees vary depending on the course. Visit our course pages for details:

Useful information

What is a transcript?

You will need to provide a copy of your academic transcript to support your application, you can request this from your university. Standard university transcripts are official documents that show details of the qualification awarded, the modules taken in each year of study, along with the marks/credits for each module shown as appropriate.

What does the Admissions Office do?

Our Admissions Office deals with enquiries and applications for postgraduate study at the University. They process the large volume of applications that we receive and work closely with subject admissions tutors to ensure your application is given the attention it deserves. They will notify you of our final decision and be on hand to answer any queries you may have about your application along the way. You can contact them by completing our enquiry form: exeter.ac.uk/**enquiry**

Tuition fees

Tuition fees vary depending on the course. Visit our course pages for details: **exeter.ac.uk/study**

Funding

See our website for details of our funding opportunities **exeter.ac.uk/funding**

Entry requirements

See our website for details of entry requirements: **exeter.ac.uk/study**

What is a PhD research proposal?

If you're applying to one of our PhD programmes, you will be required to submit a research proposal.

Your research proposal should leave a positive first impression about your 'fitness' to study a PhD. It needs to demonstrate that you are capable of independent critical thinking and analysis and can clearly communicate your ideas. There are six key elements you should include:

- A clear working title.
- A clear statement about what you want to work on and why it is important, interesting, relevant and realistic.
- Some background knowledge and context of the area in which you wish to work, include key literature people and research findings.
- Some consideration of the methods/ approach you might use.
- Some indication of the strategy and timetable for your project and any anticipated challenges.
- A list of the key references which support your research proposal.

See online for further guidance: **exeter.ac.uk/pg-research/apply/researchproposal**
