

Powering Transformational Change

Exeter
INNOVATION

Your partner in
transformative innovation,
powered by world-leading
research and education
from the University
of Exeter.

The major challenges facing organisations today demand forward-thinking solutions and a bold approach.

Exeter Innovation harnesses the world-leading research and education of the University of Exeter, working in partnership with organisations of all types and sizes to create a greener, healthier and fairer future.

Each year, we work with over 2,000 partners to develop new innovations, and solutions that make a positive impact on communities locally, nationally and globally.

When you partner with Exeter Innovation, your team becomes equipped with the knowledge, skills, talent, and insight to drive transformative innovation in your organisation and beyond. We will work with you to challenge conventional thinking, push boundaries, and give you the confidence to make the right changes at the right time.

Our dynamic community of researchers, educators, entrepreneurs and experts are here to forge the connections and partnerships that will ensure world-leading research turns into transformative innovation for the benefit of your organisation.

Together, we can create the solutions you need to succeed.

A low-angle, perspective shot of a person running on a blue athletic track. The track has white lane markings that recede into the distance. The person's legs and feet are visible in the lower right foreground, blurred by motion. The overall color palette is dominated by the blue of the track and the white of the lane lines.

Drive transformative
innovation with new knowledge,
skills, and solutions

Recruit and Develop Talent

“Our experience of collaborating with the University of Exeter on degree partnerships has been excellent. The communication and organisation are great, and it is always clear what the next steps are for both us as an employer but also for our apprentices as students.”

Mike Downing
Chief Technical Officer,
Western Provident Association (WPA)

Overview:

People are at the heart of your business. With a reputation for transformative education, exceptional graduates and professional programmes tailored to industry needs, Exeter Innovation can help you upskill your organisation and diversify your workforce.
