WELCOME TO THE UNIVERSITY OF EXETER

At the University of Exeter, we combine world-class education and research with an outstanding student experience. Home to over 30,000 students from 150 countries, we are a truly global university.

With beautiful, green campuses in Devon and Cornwall, we offer a unique opportunity to study in one of the most stunning parts of the UK. Exeter is an energetic, modern city with lots going on, while the vibrant coastal towns of Falmouth and Penryn offer a unique student lifestyle.

As a member of the prestigious Russell Group, our research is tackling some of the world's most pressing issues. When you join us, you'll learn from leading experts, engage with cutting-edge research and develop the skills you need to excel in your future career.

We look forward to welcoming you to the University of Exeter.

ACADEMIC EXCELLENCE

Our degrees are designed to develop your creativity, teamwork, analytical skills and critical thinking, as well as a global outlook – all qualities employers are looking for.

A university education focuses on self-directed learning and active knowledge creation. We collaborate with students and monitor study trends to ensure our resources and spaces remain modern and effective.

Working together

We work closely with our students to nurture the skills and mindset needed for success. In return we ask you to challenge yourself – and us – intellectually at every step.

Your degree, your way

You can tailor your degree to get the most out of your university experience – from options to study abroad, work in industry, or take modules outside of your degree programme. There's also our Flexible Combined Honours programme, if you are torn between several subjects that you love.

Our research

As a Russell Group university, our research makes a difference around the world. We believe in breaking down traditional barriers

between academic disciplines so we can consider the biggest problems of the 21st century from all perspectives. We are tackling fundamental issues facing the world to create a greener, healthier, fairer future.

How we teach, and how you learn

Depending on your course you may learn in ways you've never experienced before. These are just a few:

Lecture	Presentation or talk on a particular topic. Can be interactive, and forms a basis for further reading, questioning and thought.
Seminar	Classroom session focused on a particular topic or project. Typically involves guided discussion in a smaller group than a lecture.
Tutorial	One-to-one or small group meeting with your tutor involving supervision, feedback or detailed discussion on a topic, project or piece of work.
Workshop	Practical application of a particular skill or technique. Examples include a laboratory class, artefact handling, language conversation or sports match.
Fieldwork	Practical work conducted at an external site. Examples include survey work, data collection, excavations and explorations.
Self-directed learning	Private reading, informal discussion groups and other forms of self-directed studying will make up a significant amount of your learning.

Take a work placement year or study abroad opportunity

Build your own degree with flexible study options

We maintain the highest level of specialist learning facilities

LIFE IN THE SOUTH WEST

[Click here to find out more](#)

When you study at the University of Exeter, you'll be living in one of the most beautiful and safe parts of the UK.

With stunning national parks, sandy beaches and scenic countryside right on your doorstep, we believe there's no better place to study and live.

Beyond its natural beauty, our region is home to lively cities and picture-perfect towns with fantastic shopping, diverse dining options and a thriving cultural scene.

Whether you're based on our campuses in Exeter, Devon or in Penryn, Cornwall, you'll be joining a safe and welcoming community where you can enjoy the best of the South West.

Cornwall has the longest coastline in the UK

Streatham Campus, Exeter

Exeter city centre

Exeter Cathedral

The Cavern, Exeter

Discover Exeter's gothic cathedral

Everything is within walking distance, with the historic city centre having all the shops, restaurants, and nightlife you could need. One of the best things is how close Exmouth beach is. Getting the train is easy and I've had some of my best days down there.

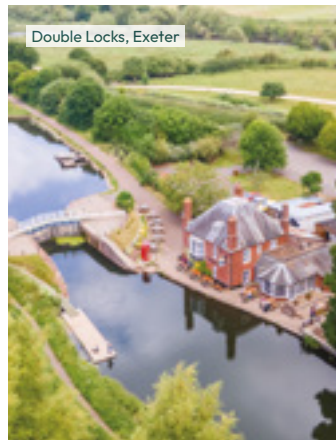

James, studying BSc Economics and Politics with Industrial Experience at our Streatham Campus.

Falmouth Quayside, Cornwall

Exeter city centre

Double Locks, Exeter

St Michael's Mount, Cornwall

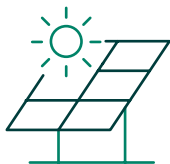

The best thing about living in Penryn is the amazing beaches and just being surrounded by nature.

As I was specialising in Marine Biology it was like being surrounded by a living laboratory. I visited the rock pools all the time either in my own time or on mini field trips.

Betty, from Hong Kong, studying BSc Conservation Biology and Ecology at our Penryn Campus.

Cornwall is a hotspot

YOUR STUDENTS' UNIONS

When you join the University of Exeter, you'll automatically become a member of your students' union. For those studying in Exeter, this will be the Exeter Students' Guild. If you're based in Cornwall, you'll be part of the Falmouth and Exeter Students' Union, known as the SU.

The Guild or the SU will open the door to many opportunities such as fun societies, student-led communities and important support services.

Societies

Societies are at the heart of student life. With over 400 societies and student groups across our campuses, you're sure to find something you love and connect with like-minded people.

Try something new: From ballroom dancing to stand-up comedy, there are plenty of societies to help you step outside your comfort zone and discover new hobbies.

Explore your passions: Write for the student newspaper, host your own radio show or showcase your talents in a band.

Make a difference: Participate in charity fundraisers and support causes that matter to you.

Embrace global cultures: Experience cultures from around the world with international societies such as African and Caribbean, Asian, Chinese, Indian, Japanese, Latin American, and Malaysian.

Enrich your studies: Connect with peers outside of the lecture theatre through academic and course-related societies.

[Click here to find out more](#)

SPORT

Whether you're an elite athlete, an enthusiastic amateur or a complete beginner, we offer a wide range of sports clubs and facilities to suit all interests. Develop your skills, learn something new or just have fun!

Get involved: With over 100 sports clubs across our campuses, there is something for everyone. Give ultimate frisbee a go, take to the waves with surfing or even learn how to horse ride.

Social sport: Join over 4,000 students playing weekly in our intramural sports leagues. A great way to enjoy sport while making new friends.

Cutting-edge facilities: Over £30 million has been invested into new and improved sports facilities including gyms, all-weather pitches, fitness classes and swimming pools.

Sports scholarships: Our sports scholarships provide support and financial benefits to help meet the needs of individual athletes.

YOUR HOME FROM HOME

It's important you have somewhere to call home when you're settling into university life.

We have dedicated accommodation in Exeter and Penryn to suit everyone's taste, budget and needs. Our university owned, managed, and approved residences are based in convenient locations on campus or just a short walk or bus-ride away.

The Sidings, near Penryn Campus

East Park, Streatham Campus

Cook and Llewellyn Mews, Exeter

Our accommodation guarantee

As an undergraduate student, you're guaranteed an offer of a place in university owned, managed or approved accommodation provided you meet the criteria and apply by the deadline.

Safety and support

Our university accommodation provides a safe and supportive environment where you'll be able to make friends and feel part of the student community. If you're living in university residences, you'll benefit from 24-hour security and the support of our Residence Life Team. In addition, your rent will cover utility bills, contents insurance and Wi-Fi. Choose to live in our catered residences and you'll even have a package of meals taken care of.

Key facts

Plenty of space: more than 8,200 beds across Exeter and Penryn campuses.

Range of prices: from £4,958.05 to £12,047.04 per year (2024/25 fee).

Flexible: Catered and self-catered options.

Convenient: All rooms on campus or maximum 30 minutes walk away in the city.

Choice of room types: Standard, en suite and studios available.

Glasney Student Village, Penryn Campus

I absolutely adored my first year uni halls room. [It became] my 'safe space' because although we all have busy uni lives, having somewhere comfortable and welcoming to come back to every night really makes all the difference.

SJ, studying BSc Sustainable Energy Futures at our Penryn Campus.

SUPPORTING YOU

Starting university is exciting but it is normal to feel a bit nervous. We have lots of support available to help you settle in and reach your potential.

[Click here to find out more](#)

Streatham Campus, Exeter

Learning support

From help with essay writing and time management to revision strategies and exam techniques, we'll do all we can to help support your learning.

Personal tutor

All our students are assigned a dedicated personal tutor. They are your go-to contact for everything from understanding feedback, signposting to support and helping enhance your employability skills.

Career support

The Career Zone offers a range of support to help you prepare for your future career including one-to-one career guidance, CV and cover letter checks, and mock interviews. They can also help you find part-time work if you want to earn while you study.

Wellbeing support

Wellbeing Services can help you with any health and wellbeing issues you may experience while studying with us.

Multifaith Chaplaincy

Our Multifaith Chaplaincy is here for students of all faiths but also of no faith. The team is made up of chaplains from a variety of religions who are available to offer listening and informal support.

Tailored support

We provide specialised support for care leavers, estranged students, student carers, mature students, and refugees, catering to your unique needs.

Disability support

Our AccessAbility team can provide support and advice for students with physical disabilities, specific learning differences, long term health conditions, autism or mental health difficulties.

After meeting with the University of Exeter's disability coordinators, I was directed to the Disabled Students' Allowance. Although I was initially hesitant and embarrassed to ask for financial help, the AccessAbility team reassured me that I was eligible and would support me through the process to secure the aid I needed.

Emily, studying BA Modern Languages
at our Streatham Campus.

FEES AND FINANCE

Studying for a degree is an investment in your future, and we are committed to supporting you.

Fees

At time of print, the fee for UK undergraduate students is likely to be £9,535 for the 2025/26 academic year¹. This proposed fee is higher than previous years to account for the impact of inflation and the rising costs faced by universities. Fees for the 2026/27 academic year are yet to be confirmed, so please check our website for updates.

Most students will take out a loan from the UK Government to cover the cost of their tuition fees. This is paid directly to the University by the Government while you are studying, and when you leave you only start repaying it after you earn above a certain threshold. Alternatively, if you meet certain criteria, you might be eligible for our full tuition fee waiver. Please check our website for details.

BMBS Medicine

Fees are covered by a standard student loan for years 1 – 4. At time of print, year 5 tuition fees may be covered by an NHS bursary, however please check online for the latest information.

Year Abroad / Year in Industry

If you're studying a four-year degree course which includes a full academic year abroad, your fee will be reduced to approximately 15% of the maximum fee for that year. If you spend a full year on work or volunteer placement, you will pay a reduced fee of 20% of the maximum fee for that year².

[Click here to find out more](#)

¹ Government policy announced 4 November 2024, subject to parliamentary approval.

30 ² These figures may be subject to change should government policy alter.

Living costs

Alongside your tuition fees, living costs will be your other main expense. Many students apply for a Government maintenance loan to help with their living costs. The amount you get will depend on your household income and will be paid into your bank account at the start of each term. Like a tuition fee loan, this will need to be repaid.

We know that budgeting for your living costs as a student can seem daunting, especially if this will be your first time living away from home. At the University of Exeter, you'll find accommodation to suit a range of budgets, plus part-time campus job opportunities, advice on managing your money, low-cost activities and other cost-cutting initiatives across our campuses.

[Click here to find out more](#)

FINANCIAL SUPPORT

We believe financial worries should not put anyone off studying with us.

Learning to live on a budget at university may be a challenge for some, especially if it is your first experience of living independently. Our range of bursaries and scholarships offer financial support to students who are eligible, plus our friendly teams can offer advice and budgeting workshops to ease the transition to uni life. Find out more: exeter.ac.uk/students/costofliving

At the University of Exeter, we offer:

- Bursaries for UK students from disadvantaged backgrounds
- Scholarships for academic or sporting excellence, as well as other criteria
- Hardship funding for students experiencing unexpected financial difficulties
- Expert funding advice and guidance

Across our campuses you'll also find:

- Part-time job opportunities, as well as help with applications and interviews
- Free debt advice
- Low-cost meals and study space kitchenettes
- Low-cost activities run by our Students' Guild and Students' Union

The bursaries offered by the University have been an absolute lifeline for me. Obviously, like everyone, I still have to budget and be aware of how much I'm spending, but it is really comforting to have a bit of extra financial support as a safety net.

Emily, studying BA Modern Languages at our Streatham Campus.

Career support

Our commitment to your success doesn't end at graduation. Enjoy free career support services tailored to your needs.

Global alumni events

Stay connected with fellow alumni through regular virtual and in-person events held worldwide.

Exclusive discounts

Benefit from a wide range of exclusive discounts available to alumni.

Lifelong learning

Continue your academic journey with free access to thousands of online journals.

Vibrant networks

Discover social and professional networks that will support you throughout your life and career.

Gyllingvase Beach, Falmouth

YOUR APPLICATION

We encourage and welcome students from all backgrounds, and will support you to succeed.

Our 'Typical Offer' is the baseline for most accepted applicants. It shows the expected grades needed for each subject as well as any specific requirements. While we usually stick to these ranges, we may occasionally offer

exceptional individuals a place even if their grades fall slightly below.

We do not make unconditional offers unless you have already achieved the required grades.

Crosskeys, St Luke's Campus, Exeter

Contextual offers and alternative qualifications

We understand that your academic journey may be influenced by various factors, so we evaluate your application in the context of your background. If you meet certain criteria, we may offer you lower entry requirements than our standard. This is called a contextual offer.

All our undergraduate courses are eligible for contextual offers.

Find out more about contextual offers:

exeter.ac.uk/undergraduate/entryrequirements/contextual

We're also keen to accept qualifications other than A levels. These include, but aren't limited to:

- Access to HE course
- Advanced Welsh Baccalaureate – Skills Challenge Certificate
- BTEC
- Extended Project Qualifications / Core Maths
- Scottish Highers and Advanced Highers
- T Levels

Check your eligibility: exetereligibilitychecker.uk

Interviews

Most of our degrees do not require interviews. Where interviews are part of the process, we make this clear in the subject pages on our website. Typically, we interview for Applied Psychology, Medical Imaging (Diagnostic Radiography), Medicine, and Nursing degrees.

Personal statements

Your academic results are by far the most important part of your application and are the best predictor for success at university. We rarely use personal statements selectively because we are mindful of different levels of support between schools and colleges. However, they can in theory be part of what makes a difference if we have to choose between candidates with the same predictions or achievements.

Find full details of all the qualifications we accept: exeter.ac.uk/study/undergraduate/entryrequirements

If you have any queries about the qualification you have taken, please contact our admissions team: ug-ad@exeter.ac.uk

PARENTS AND SUPPORTERS

Choosing to go to university is a big decision, and finding the right course and place to study can feel daunting. We understand that parents, guardians, carers and relatives play a key role in supporting students throughout this process.

Whether you're new to higher education or have been through the process before, we've gathered everything you need to help guide your learner through their application journey. This includes online sessions and a dedicated newsletter for parents and supporters.

Having open conversations early in the process can help them make informed decisions. Things you might like to discuss together include:

- Financial planning and support
- University prospectuses and websites
- Any learning support they may need during their studies
- Visiting campuses at an Open Day

Our Discover University platform is home to lots of useful resources for prospective students, parents and supporters. We also run free online events throughout the year for both students and parents/guardians/carers where you can find out more about the application process, student life and how to apply.

CHOOSE YOUR COURSE

Streatham Campus, Exeter

Most of our undergraduate degree programmes are listed in the following pages. The letters next to each programme indicate the location, so you'll know if it's taught at either our Streatham or St Luke's campuses in Exeter, or our Penryn Campus in Cornwall. We also list the UCAS code, typical offer requirements at A level, IB, and BTEC, and whether we make contextual offers (see p37).

Find full course details, including module information, subject-specific entry requirements, and information about facilities, field trips, teaching, study and work abroad options, and our innovative Flexible Combined Honours: exeter.ac.uk/study

We are constantly developing our portfolio of programmes, and while we make every effort to ensure this list is correct when the prospectus is printed, it can very quickly go out of date. Please always check our website for the latest information before you apply.

INTO: Programmes for International Students						
Foundation	–	E	INTO University of Exeter offers Foundation and International Year One programmes for international students who do not meet the academic and/or English language requirement for direct entry to the University. Find out more: exeter.ac.uk/study/undergraduate/courses/foundation			
International Year One	–	E				

 Study abroad option  Work placement option  Foundation year available

DEGREE APPRENTICESHIPS

Degree apprenticeships are a great way to gain a full undergraduate degree while earning a salary. You'll spend 80% of your time working with a partner company and the rest studying.

This is a great option for people who want to earn a degree but don't want to take on the financial burden of traditional university fees. It's also a great way to gain valuable industry experience while you study.

Find out more about the kinds of companies we partner with and how to apply: exeter.ac.uk/study/degreeapprenticeships/apprentices

- BSc Chartered Manager
- BEng Civil Engineering
- BSc Diagnostic Radiographer
- BSc Digital and Technology Solutions
- BSc Financial Services Professional
- BEng Mine Management
- BSc Project Management

Penryn Campus, Cornwall

OUR LOCATION

Depending on what you study, you may be based at our Streatham or St Luke's Campus in Exeter, or our Penryn Campus in Cornwall. Wherever you are, you'll be well-connected to cities and close to countryside and coastlines, making it easy to explore and enjoy the best of the UK.

Exeter, Devon

Walk: St Luke's is just a 15-minute walk from the city centre, while Streatham is a 20-minute stroll.

Train: Direct services to London, Bristol, and other major cities; London in just over two hours.

Bus: Regular services between our Exeter campuses and the city centre.

Car: Exeter has excellent road connections to other major cities, making driving straightforward.

Plane: Explore the UK and Europe with flights from Exeter Airport.

Penryn, Cornwall

Walk: From campus to the town of Penryn in 20 minutes.

Train: Services to all major cities from Truro in Cornwall with connecting services to Penryn.

Bus: Regular services run from the Penryn Campus to Falmouth and Truro.

Car: The Penryn Campus is approximately a 2-hour drive from Exeter.

Plane: Newquay Airport is the nearest airport to Penryn, offering flights to destinations across the UK and Europe.

Visit us

Visiting us is a great way to help you decide if we are the right university for you. Come to an Open Day or book onto one of our regular campus tours.
